

IT Technician

A day
in the life
of...

AMBRA SOLUTIONS is a telecommunications engineering firm located in Canada in the cities of Trois-Rivières and Montreal, as well as in Chile. Always on the lookout for innovations in its field of expertise, Ambra is the first Canadian company to offer private LTE solutions. From designing products not available on the market to implementing solutions for critical operations, innovation is our mainstay. Ambra Solutions offers a flexible work environment and a wide variety of projects that allow you to take on professional challenges. At Ambra, you will get...

GOLDEN CO-WORKERS

Our team is made up of passionate people who rise to any challenge in a pleasant work environment. Strong communication between colleagues enhances teamwork and allows us to maximize our results in a stimulating environment.

BENEFITS THAT MAKE THE DIFFERENCE

We offer a group insurance program (dental and medical), a pension plan (up to 5% employer contributions), a physical activity bonus and an employee assistance program.

FLEXIBILITY

We offer a flexible work schedule, the possibility of remote work, a large degree of autonomy for the employee as well as outstanding professional growth and professional development opportunities (training in all areas).

As an IT technician, you will work with our IT department. You will provide first level support the employees of each of our companies.

Here's what a typical day in the life of a computer technician might look like...

- You offer first-level support to users
- You are responsible for the maintenance and updates of our IT fleet
- You are responsible for the acquisition, configuration and installation of IT devices
- You take care of the daily tasks related to security and backups
- You participate in technological choices with the IT team
- You write or update IT procedures and documents
